

STEP'TRAIL FOR WOMEN

P702LZH

S1P ESD HRO SRC

BENEFITS

Lightweight and very breathable sporty shoe thanks to the ultra thin 3D mesh upper.

APPLICATIONS

- Industries
- Logistics
- Maintenance
- Services
- Finishing work
- Dry environments

BONUS

IMPULSE.FOAM® midsole with energy return.

Description

- Safety sneaker for women
- Highly breathable upper made of 3D mesh (outer fabric and lining) thanks to Clima Fit technology
- Seamless anti-chafing design for more comfort
- Honeycomb shaped PU micro-injection on the upper with reinforcements on the front, the external side and the heel for improved abrasion and shock resistance
- Soft padding around the heel and tongue providing a gentle embrace.
- Glass fiber toe cap resisting a drop force of 200J and insulating from cold and heat
- Comfit® AIR insole with arch support, constant shock absorption and ventilation holes on the front for a better breathability
- Non-metallic puncture-resistant midsole in compliance with EN ISO 20345 standard
- Dual density sole providing great stability, optimum shock absorption and long-lasting comfort:
 - IMPULSE.FOAM® midsole returning up to 55% energy,
 - Heat-resistant rubber outsole - slip resistance rating (SRC) in compliance with EN ISO 20345 standard
- Compliant with the ESD requirements according to BS EN IEC 61340-4-3 standard

Standard

- EN ISO 20345 : 2011 S1P HRO SRC
- BS EN IEC 61340-4-3 : 2018 ESD

Packaging

- Available in sizes 36 to 42 - Boxes of 5 pairs
- Sales unit: 1 pair
