PRODUCT PROPERTIES / APPLICATION AREA:

ACTIVE PEARLS[®] PLUS is a hand cleanser for heavy dirt which has a strong cleansing effect. However, the skin is not affected by abrasive scrubbing agents. According to the pH value of the human skin, the liquid heavy-duty hand cleanser is slightly acidic. Furthermore, the dermatological compatibility of the surfactant combination is very good. ACTIVE PEARLS[®] PLUS contains the patent-registered dirt removing agent Active Soft Pearls[®] (ASP), but it does not contain solvents. The soft and smooth pearls made of hydrogenated castor oil (wax) can remove dirt particles without affecting the skin. Furthermore, there are no residues in traps and sewers.

APPLICATION:

Apply ACTIVE PEARLS[®] PLUS evenly on the dry skin. For heavy dirt, a small hazelnut-sized amount of hand cleanser is sufficient. Rinse off with plenty of water afterwards. A proportional bigger amount of the hand cleanser has to be used in order to remove heavier dirt.

DESCRIPTION:

Light beige and fluid paste, fragrance-free, solvent-free, with skin-neutral pH value.
