LIGHTWEIGHT

WATER REPELLENT

MADE WITH

3M THINSULATE™
Insulation / Isolant

Benefits

- Abrasion-resistant reinforcements at toe and heel to provide better protection
- Breathable and insulating Thinsulate™ lining inside
- Non-magnetic

Applications

- Building and civil engineering
- Outdoor work
- Logistics
- Dry environments
- Wet environments

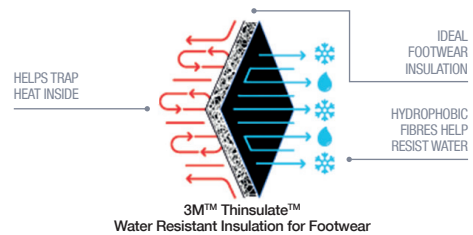

Packaging

- Sales unit: 1 pair
- Boxes of 5 pairs

Description

- Safety boot
 - Water-repellent pull-up Buffalo leather upper, brown color
 - Breathable and warm Thinsulate™ lining, absorbs perspiration and keeps the foot dry
 - Composite toe cap resisting a drop force of 200J
 - Non-metallic anti-puncture midsole in compliance with EN ISO 20345
 - Removable, anatomic and sweat reducing preformed shape memory insole
 - Injected PU/PU antistatic and oil-resistant lightweight outsole
 - Cleated outsole for improved fluid evacuation, defined heel
 - TPU shock absorbing insert
 - Side impact protection
 - Triple reinforcements on the toe and heel areas: ergonomic PU protector, shock absorbing stripes and overcap/anti-abrasion stiffener
 - EJECT-X system on heel for easy removal
 - Insulation from cold (CI) and heat (HI)
 - Slip resistance coefficient (SR) in compliance with EN ISO 20345
- Weight (size 42): 840 g

Standard

- EN ISO 20345 : 2022 S3S CI HI FO LG SR
