Product Details

Product name:	Encapsulated Particulate Filter.
Model:	3M 6035 (standard industrial product).
Product type:	Particle filter.
Technical Specification:	Harmonized European Standard EN 143:2000.
EN 143 classification:	P3 R. (The model is designed for use in a twin filter configuration).

For product manufactured between July 2002 and April 2007 the product assessment was based on BS EN 143:2000, the English language version of EN 143:2000, respiratory protective devices – particle filters.

For product manufactured from May 2007 the product assessment was based on BS EN 143:2000, the English language version of EN 143:2000, respiratory protective devices – particle filters, both documents incorporating Corrigenda 1 and 2 and Amendment 1.

The model is an encapsulated filter that is designed to protect against solid and non-volatile liquid particles. The Filter is designed for use with the 3M 6000/7000/7500 series of Half Masks and the 3M 6000/7000 series of Full Face Masks. The Masks have been independently CE Certified.

Packaged variants

In addition to the product referenced on this Certificate the standard industrial product may also be sold as market specific packaged variants. Such variants will be identified by an alpha suffix added to the model reference and the Technical File will be updated with the appropriate information.

Kits and packouts

The product referenced on this Certificate may also be combined with other 3M products into a kit or packout. There will be no change to the product but the user information may vary. In such instances the Technical File will be updated with the appropriate information.
